Primary

Organize. Streamline. Automate.
COVID-19 Vaccine and Testing Programs

Reopen - Stay Open Safely.
COVID-19 Workplace Testing

Primary.Health

Primary provides turnkey solutions to promote a safer in-person work environment. We offer convenient, reliable, and affordable on-site and at-home testing options for employers with multiple service offerings to meet your needs.

Why Choose Primary?

Primary is low cost, convenient, and automated. If you choose a full concierge service, it's expensive and retail test kits alone lack a platform to monitor compliance and track your data. We're built to help businesses manage COVID-19 workplace testing.

Ask about our flu shot and COVID vaccine programs

We streamline registration, on-site workflows, reporting, and data analytics to enable convenient, efficient, and affordable testing

Primary Provides:

- Testing Options to Meet Your Needs
- No Staffing Needed
- Employee Roster Uploads
- Registration & Appointment Scheduling
- On-Site or At-Home Testing
- Automated Reporting
- Automated Test Results
- Data Analytics & Dashboards

"Primary.Health got our BinaxNOW™ program up and running in less than 24 hours. Their platform helped us create a safer in-person learning environment for all of our staff especially our teachers and students."

Roy Mendiola, Ed.D.
Superintendent McSwain Union
Elementary School District

Test Kits:

Primary's rapid antigen program features Abbot BinaxNow™ which you can conveniently purchase through **ProjectN95**, an online retailer, or your local pharmacy.

Employer Pricing:

- **For employers with 250 employees or less:**
  - $250 one time start up fee
  - $500 fee per month (250 test entries included at no charge during first month)
  - $1 per test software fee after first month
- **Custom Add-Ons include:**
  - Positive Case Follow Up
  - Genomic Sequencing
  - Other Testing Options
  - Onsite Staffing
