

OSHA COVID-19 Testing Mandate

ARE YOU READY?

Checklist For Employers

- ☐ Stay up-to date on current and pending employer requirements
- ☐ Prepare a written compliance plan for employees
- ☐ Inform all employees of the ETS requirements ahead of the mandate
- ☐ Determine your testing protocols: Unvaccinated, vaccinated, both and/or reactive
- ☐ Determine what method you will use to manage employee vaccine verification and testing: Do it yourself, train your HR team, or use a software solution for simplicity, affordability and reliable compliance

WITH a COVID-19 Software Solution

- Easily upload employee roster
- Vaccine status determined during registration
- Automated testing notifications
- Flexible testing options
- Automated communications
- Nudge and track employee vaccination adherence
- Easily monitor program compliance and test results
- Analytics and automated state reporting

WITHOUT a COVID-19 Software Solution

- ☐ Identify how you will segment your populations (vaxxed/unvaxxed)
- ☐ Identify how you will receive, verify and store proof of vaccination
- ☐ Develop a strategy to schedule, track and enforce employee testing compliance
- ☐ Develop messaging and a communications strategy to encourage vaccination
- ☐ Track positive COVID-19 test results to allow for quick safety protocols
- ☐ Create reporting protocols to meet OSHA/ETS requirements
