# Primary

Simple, Affordable, Streamlined

# An Ultra Efficient, Lightweight EHR for Providers

Simple, powerful and built to meet your needs

## Primary.Health

We provide a cost effective and agile EHR solution with a user-friendly, simple and secure front-end. Our software allows participants to easily self-enroll, including those outside of an established patient population.

## Why Choose Primary?

Our lightweight EHR provides digital registration and consent in the field. This enables community partners, employers, long-term care facilities, events, direct-to-consumer programs, and staffing partners to work in tandem with clinicians in one platform, without any user-based cost.

Primary is ultra efficient for testing and diagnostics which allows providers to maximize operations, serve more people, easily scale services with business growth, and capture more revenue.
